10. Revegetation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
11. Air Quality	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12. Other	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Bond Amount: \$10,000

Permit fee: Current.

Purpose of Inspection: This was a routine annual inspection of the site.

Inspection Summary: Photos attached.

6) Difficult to tell the extent of the mining operation that is ongoing from the disturbance of any concurrent reclamation. Concurrent Reclamation is recommended by DOGM

12) The NOI should be updated with current maps that are more representative of disturbance at this site. The contact for this permit is listed as Ben McInnes, Operator needs to update permit if contact person has changed.

Conclusions and Recommendations: An annual mining report is required to be submitted. The boundaries of the mining area need to be clearly defined. Defined disturbance should be staked in the field on the ground. DOGM will continue to monitor this site.
